# JOINT MISSION COVERAGE SUMMARY

Mission C 6019  
10 September 1958

## Summary of Coverage

Mission C 6019, flown 10 September 1958, covers the coastal area of China from near Ta-ya Wan (Bay), northeast of Hong Kong, to near Ping-yang Tsui (Point), about 110 nautical miles northeast of Fu-chou. The mission also covers inland China from the Amoy (Hsia-men) area across southwestern Fukien Province, and the Kan-hsien area of southern Kiangsi Province, to the Pei Chiang Valley, the Canton (Kuang-chou) area, and the Tung Valley. The city complexes of Amoy and Canton are covered, also a portion of Shan-tou (Swatow). One Fagot in flight is covered (see page 45, item 9).

## Quality

Quality of the coverage is mostly good. There are clouds near Fu-chou and northward along the coast, near Shan-tou, and in several scattered inland areas.

## Notes

1. Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and

Page 1 of 58

TOP SECRET

25X1

HTA-MCS-21-58

Urban Areas -- alphabetically; all other categories -- by (1) WAC number, and (2) exposure number. An index of names of cities, villages and natural features used in the text concludes the report.

2. The abbreviation ASSOTW in the text stands for the "Airfields and Seaplane Stations of the World" series, while ATMP designates mosaics and charts in the "Air Target Materials Program" series.

3. Coordinates: All latitude readings are North; longitude readings East.
